

The **Kitchen Workstation** is a food preparation unit designed to provide assistance with meal preparation. The product incorporates a grater and peeler, a raised L-shaped edge to assist with buttering bread or toast, a removable stainless steel spike to assist with holding fruit and vegetables in place, and a removable clamp.

There are four non-slip suction pads to prevent the product moving when in use.

The product measures approximately 495mm x 300mm.

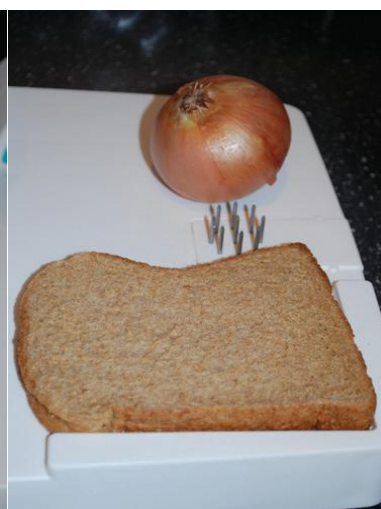

See the pictures below showing the unit and more detailed pictures showing the multiple functions available on the Kitchen Preparation Station.

Clamp – useful for cutting.

Grater & Peeler.

Spike for holding vegetables & raised L-shaped edge.
